

CERTIFICATE OF COMPLIANCE to REACH REGULATION (EC) No 1907/2006 OF THE EUROPEAN PARLIAMENT

Company: **ABB Power Electronics Inc.**

P/N: **CC109165602, EP1000-UTEZ RECTIFIER**

Under the structure of REACH regulation, ABB Power Electronics Inc., is a manufacturer of “Articles” according to ECHA’s guidance for articles. We do not manufacture substances or preparations and our articles do not involve the intentional release of substances. Accordingly, we foresee no registration or pre-registration or Authorization requirement for the product we supply.

ABB Power Electronics Inc. is aware of the recent European Court of Justice ruling of September 10, 2015 regarding the concept of an “article” under the EU Regulation on Registration, Evaluation, Authorization and Restriction of Chemicals (REACH). ABB Power Electronics Inc. is committed to be a market leader in supplying products to its customers and continues to evaluate the recent decision to fully ascertain the implications to our product portfolio. We are engaging with our suppliers concerning the presence of Candidate List Substances.

With regard to the requirements of Article 33 of REACH: Duty to communicate information on substances in articles, we declare that except for note 1 below, none of the SVHC Candidate List Substances for authorization currently released by ECHA, is present in concentration equal to or above 0.1% weight at the component article level.

With regard to the requirement of Article 67 of REACH: A substance on its own, in a preparation or in an article, for which Annex XVII, contains a restriction shall not be manufactured, placed on the market or used unless it complies with the conditions of that restriction. We declare that none of the substances in the Condition of Restriction is present in ABB Power Electronics Inc. product

As REACH regulation is updated frequently for major changes during the year such as additional SVHC substances added into Annex XIV, ABB Power Electronics Inc. will evaluate further as those updates happen and revise or update this declaration to reflect any changes.
